Class 2

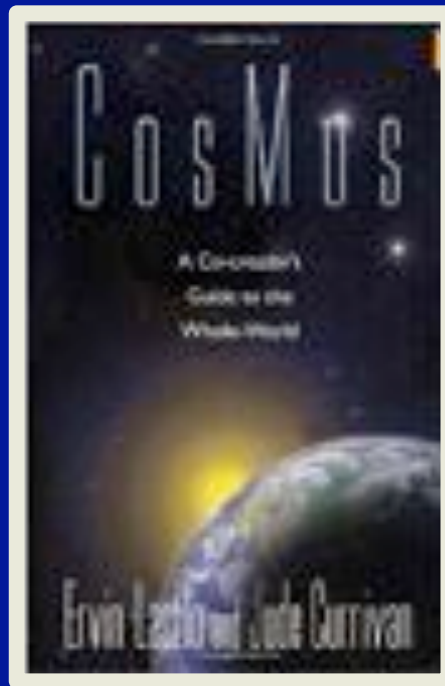

Advanced Studies of the Human Aura

El Morya

CosMos

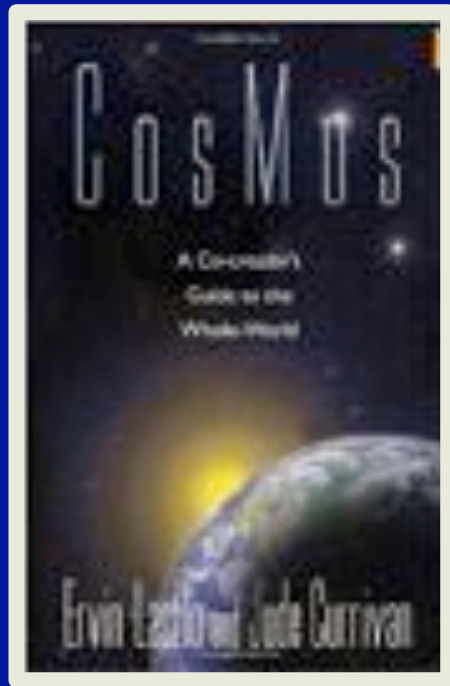

A Co-creator's Guide to the Whole-World

by

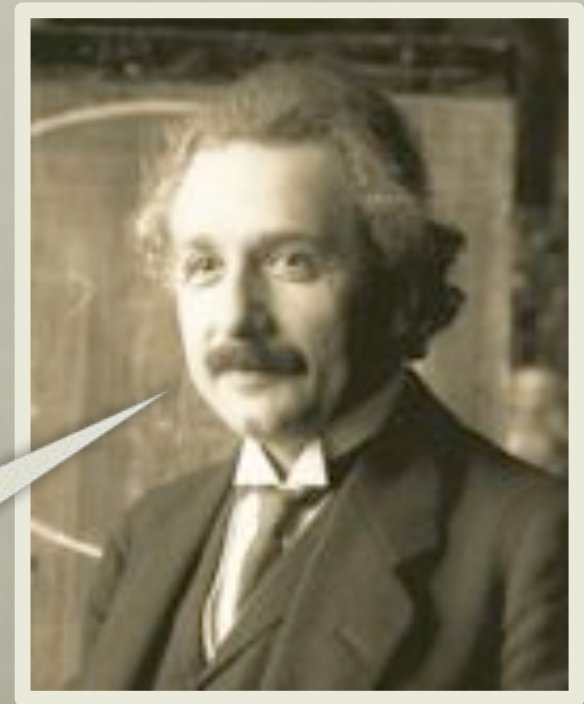

Ervin Laszlo and Jude Currivan

Chapter 3

Relativity

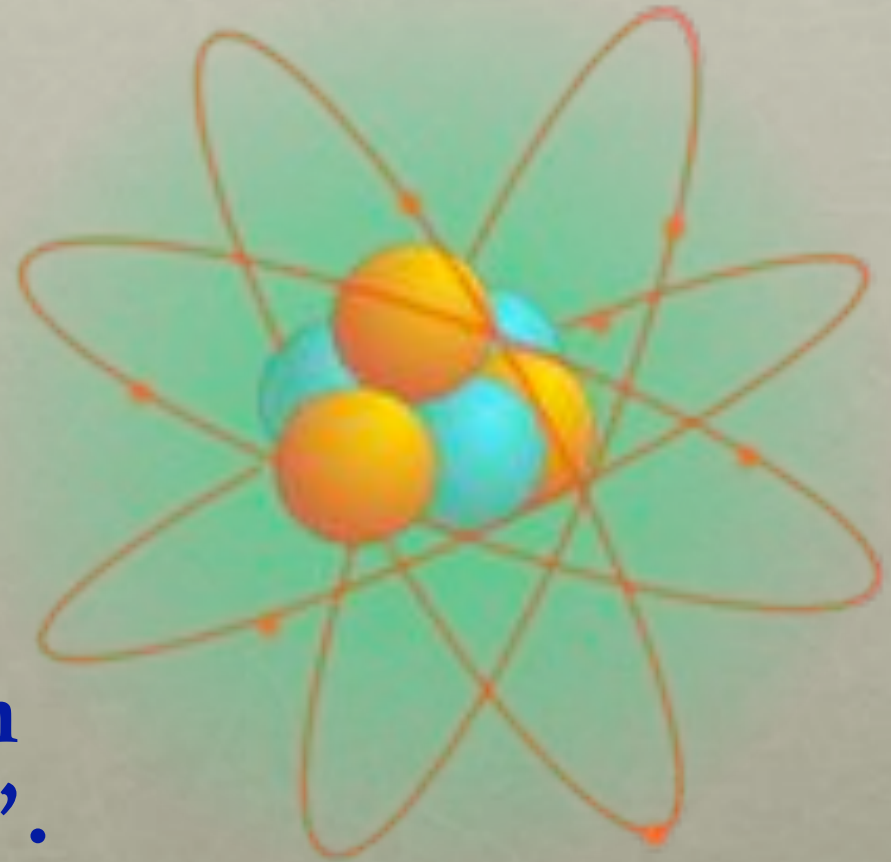

Einstein's Theory of Relativity

Everything is Relative!

Subatomic Science

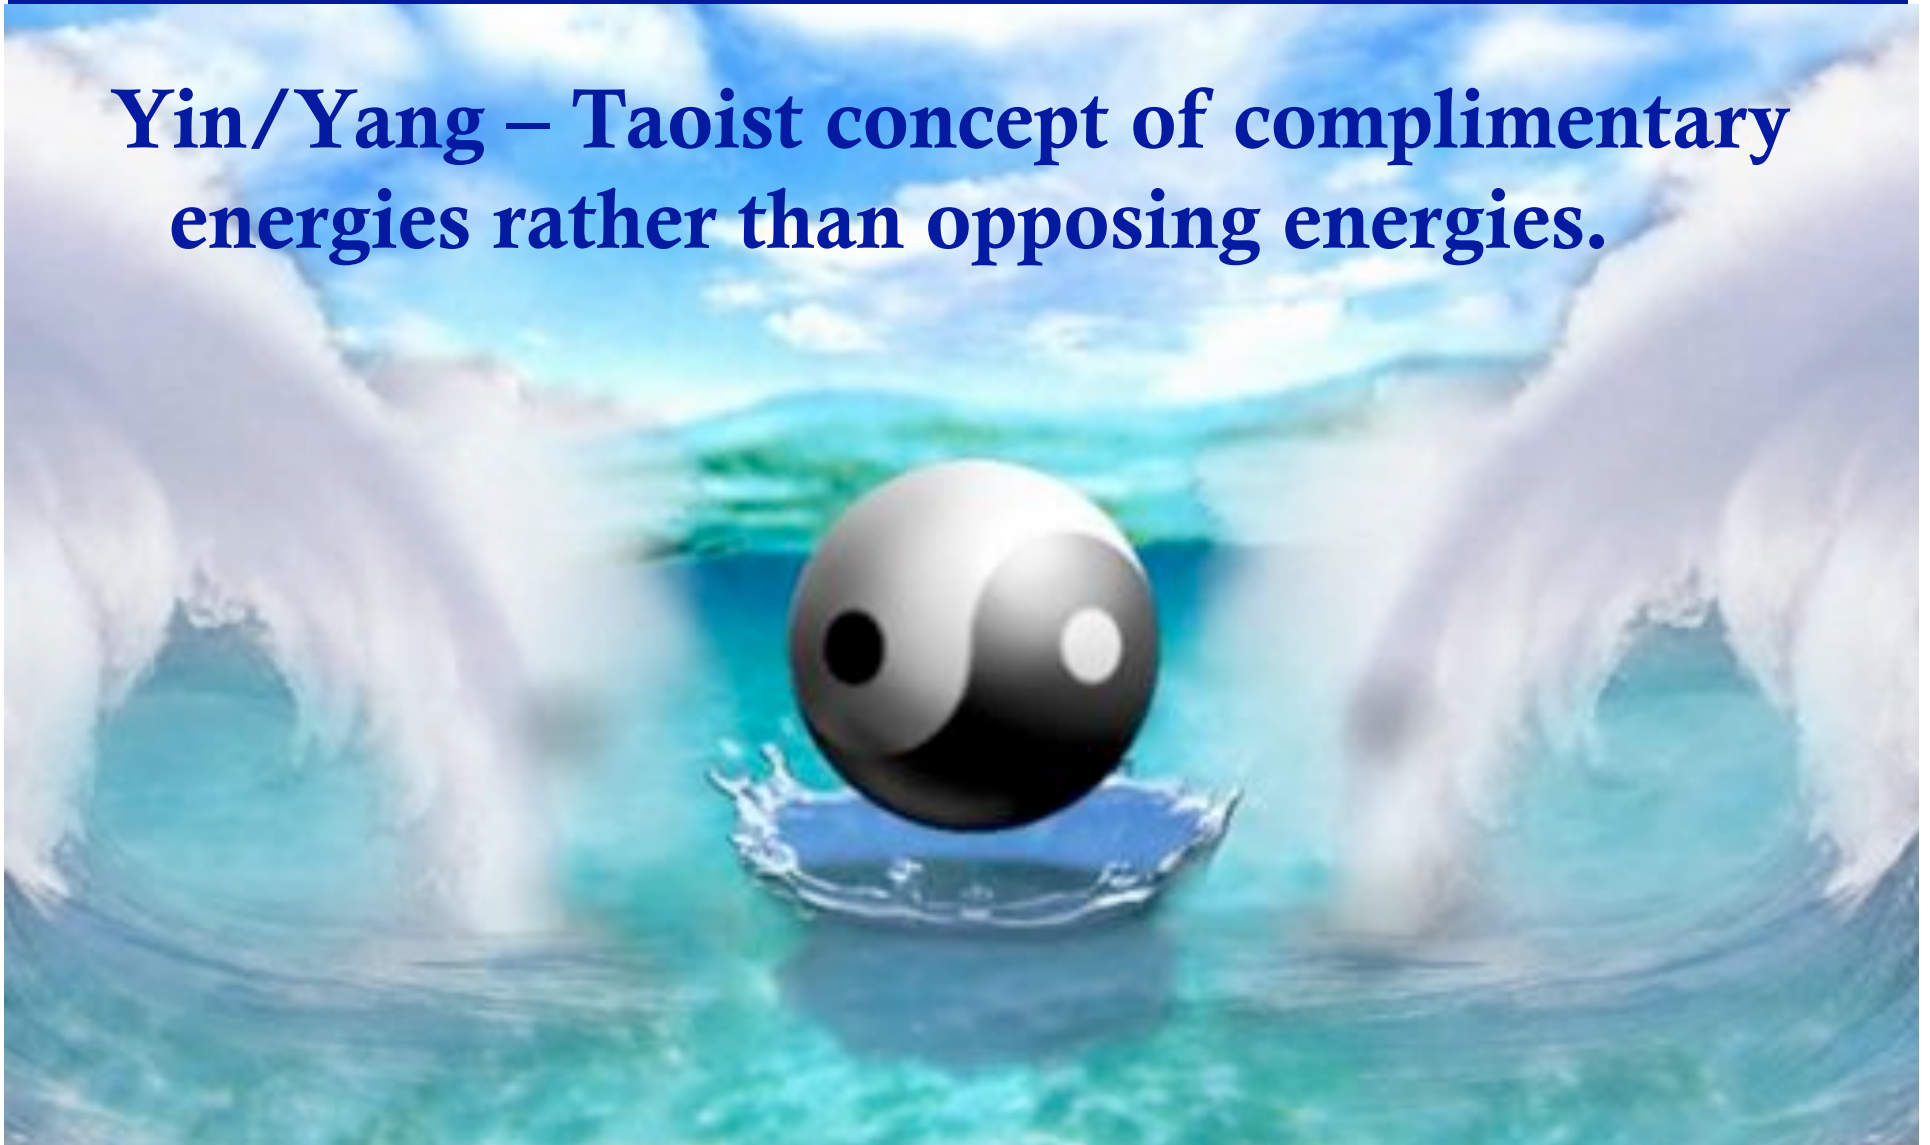

Quantum Theory vs. Relativity Theory.

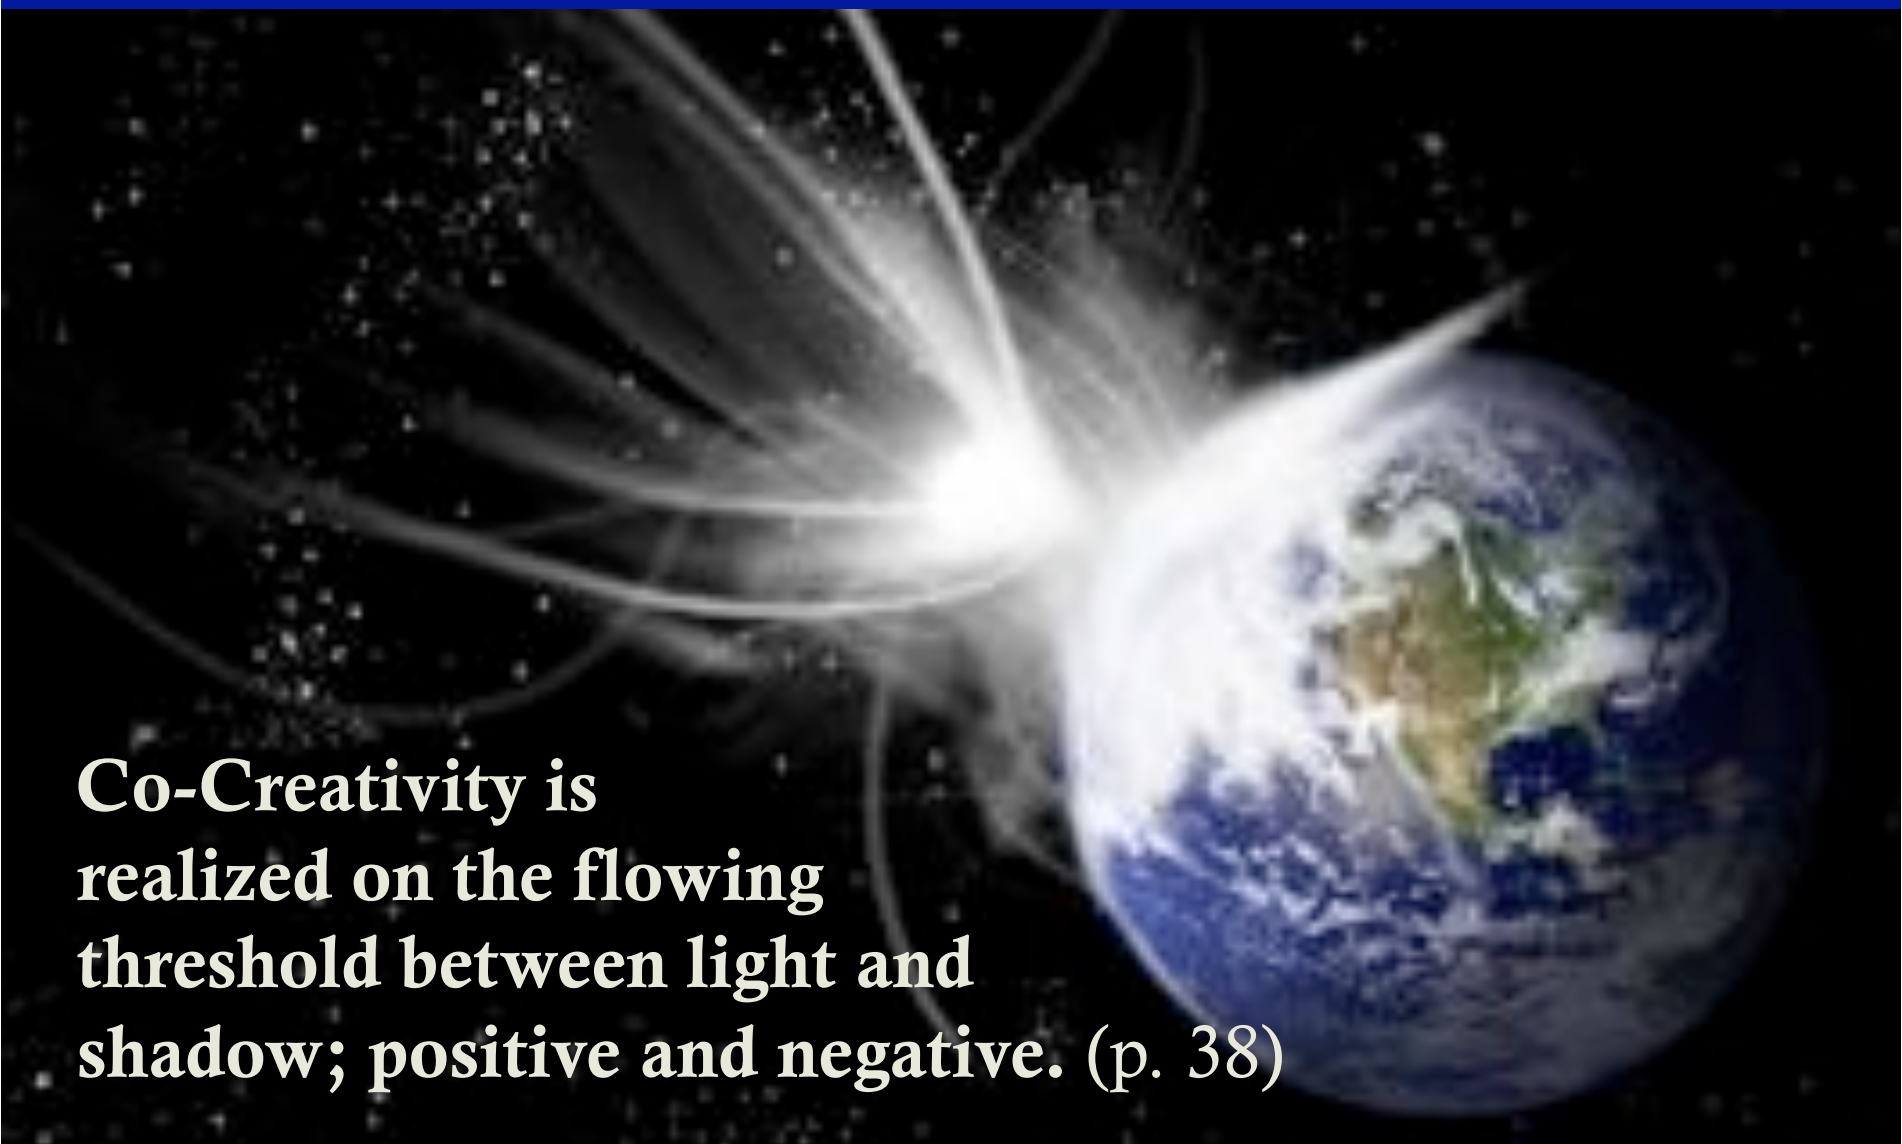

**There is no agreed upon
“Theory of Everything”.**

Taoist Philosophy

Yin/Yang – Taoist concept of complimentary energies rather than opposing energies.

Interweaving Cosmic Forces

Co-Creativity is realized on the flowing threshold between light and shadow; positive and negative. (p. 38)

Interweaving Cosmic Forces *Continued...*

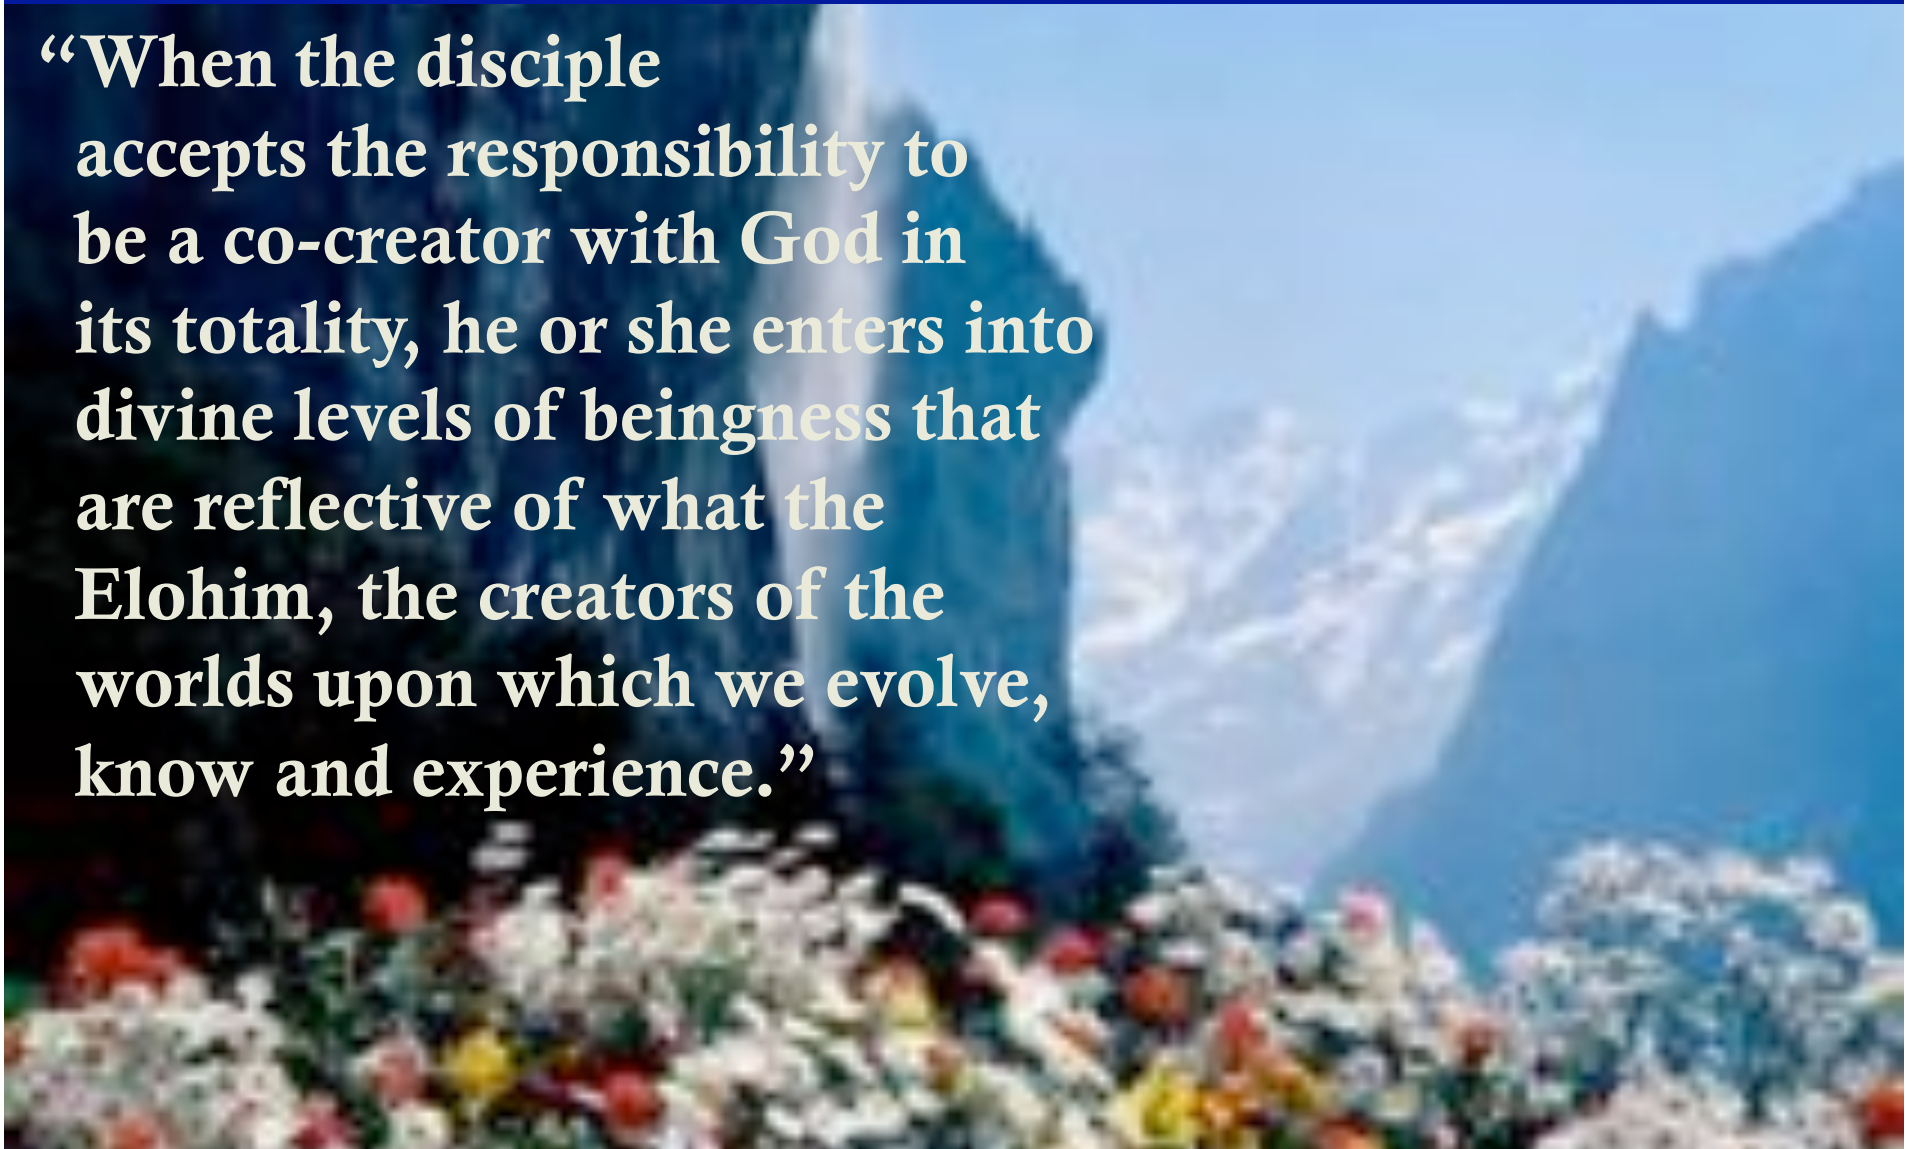

It is the interplay of such cosmic principles wherein lies the deep mystery of existence and experience.

(p. 38)

El Morya 3-18-10

“When the disciple accepts the responsibility to be a co-creator with God in its totality, he or she enters into divine levels of beingness that are reflective of what the Elohim, the creators of the worlds upon which we evolve, know and experience.”

El Morya 3-18-10 *Continued...*

“Co-creation is easy, natural and joyful. The Co-creative life is the only true life for those who are one with God, for God is continuously re-creating the cosmos each moment within the Eternal Now.”

El Morya 3-18-10 *Continued...*

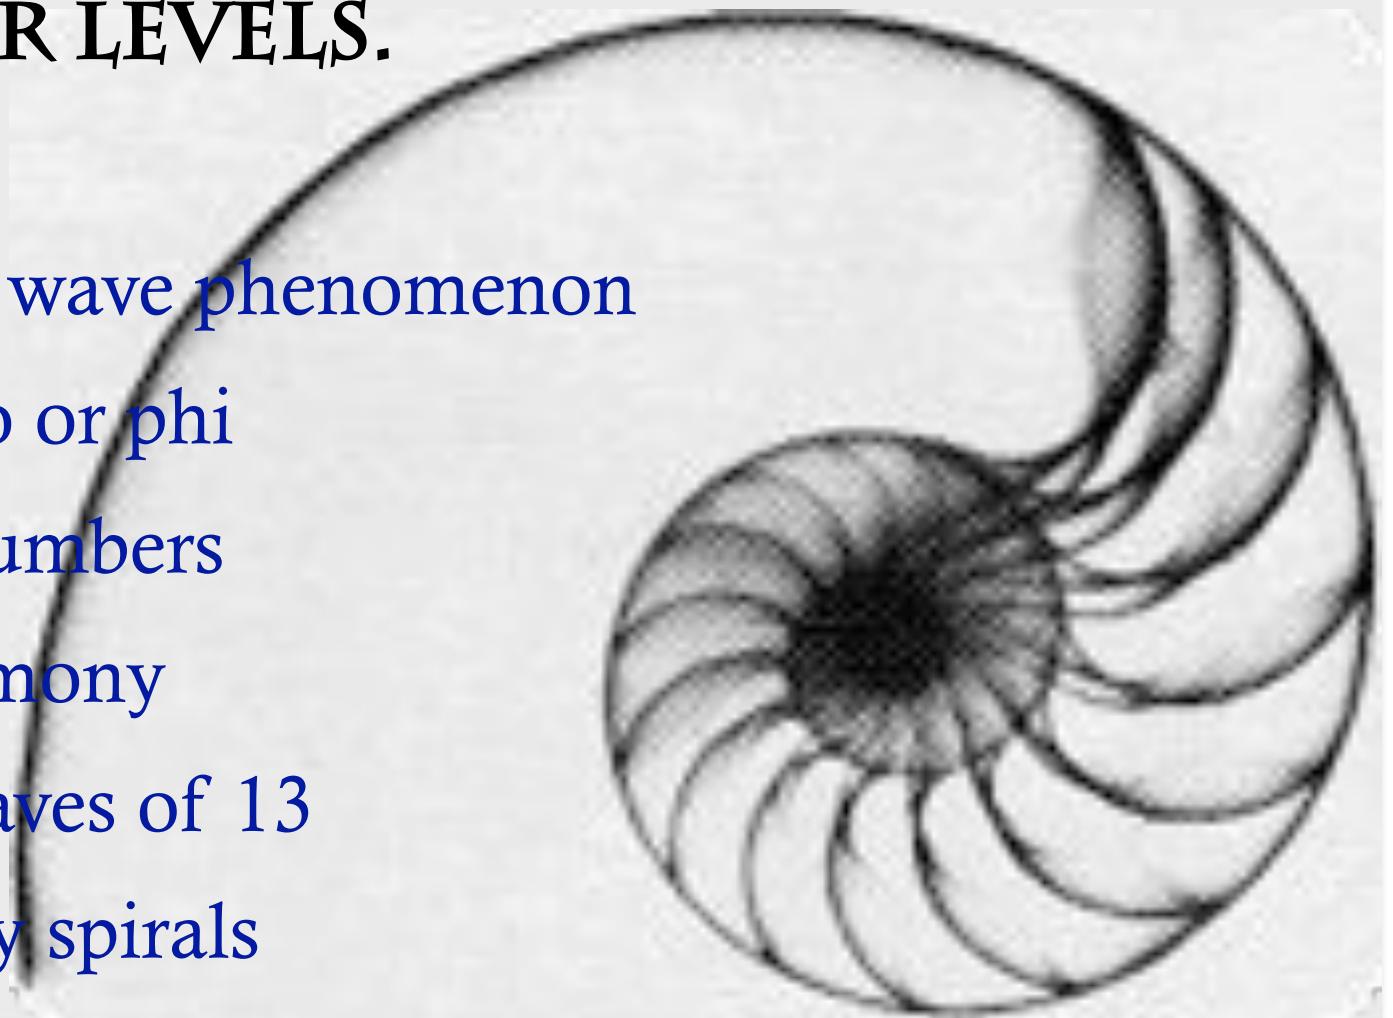

“In reality,
all true co-
creative work
consecrated to
the Divine
One affects
the entire
cosmic web
of life –
at micro-
cosmic and
macrocosmic
levels of life.”

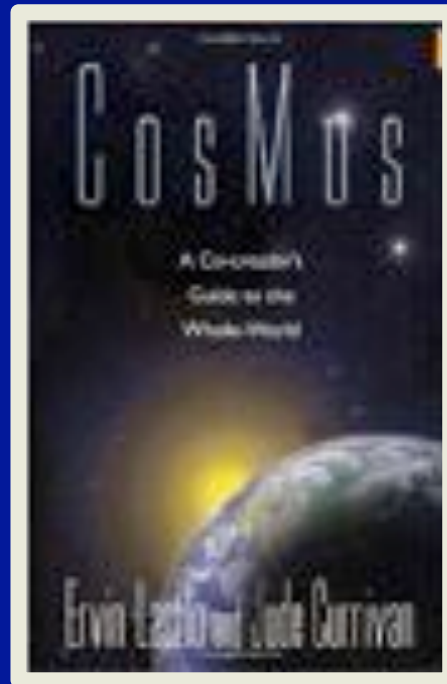

Cosmic Phenomenon

CO-CREATIVE ASPECTS CONNECTED
AT DEEPER LEVELS.

- Symmetries
- Particle and wave phenomenon
- Golden ratio or phi
- Fibonacci numbers
- Cosmic harmony
- Musical octaves of 13
- Evolutionary spirals

Chapter 4

Akasha and the Whole-World

Vision of Cosmos as Wholly Integrated

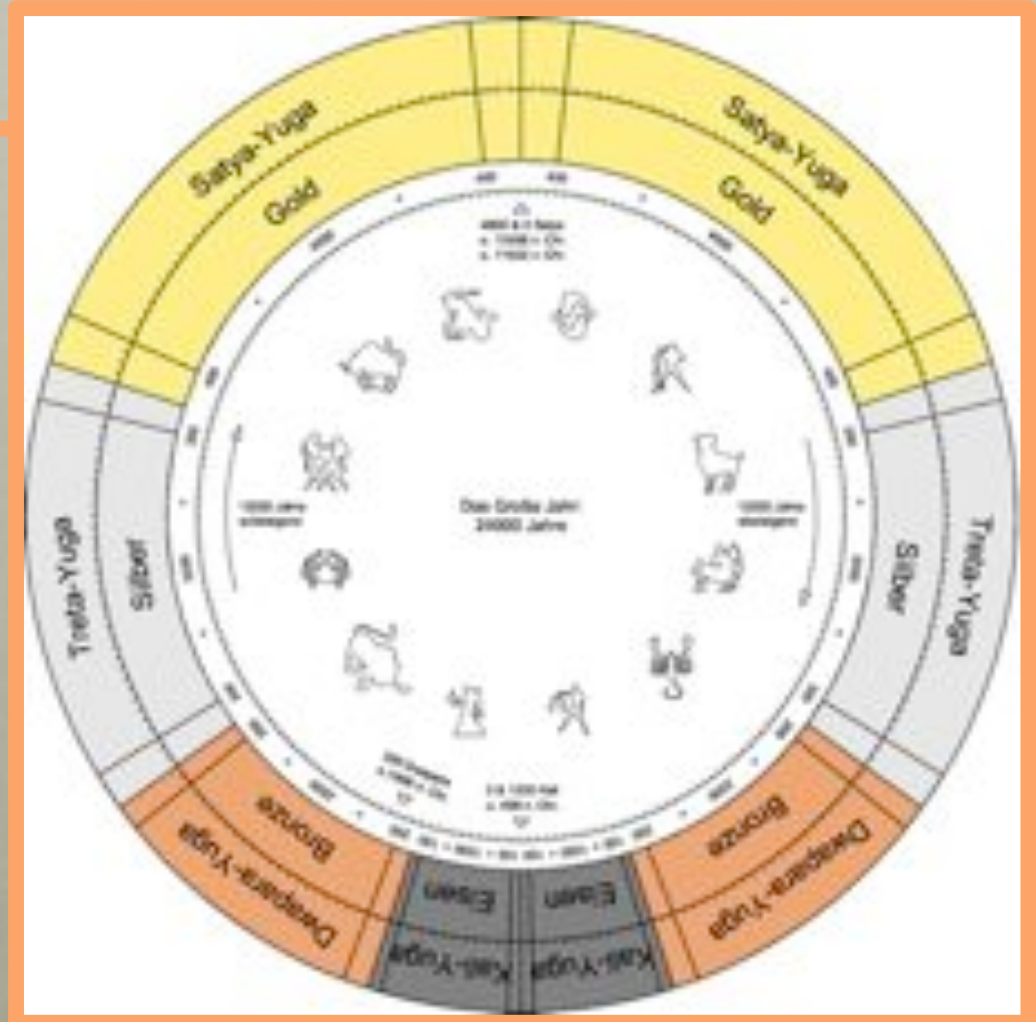

**Holding the balance for our Expanding Universe:
Fluctuating levels of order and information. (p.54)**

Ancient Beliefs

The Great Year

Greek/Vedic teachings
on the Astrological
cycle of the Ages –
Precession of the
Equinoxes

Empty or Full?

The Quantum Vacuum vs. Quantum Plenum:

A seething matrix of virtual energies and particles that move in and out of physical existence so quickly that they have no effect on the overall energy of the universe.

(p. 54)

The Great Web of Life

Akasha

Sanskrit term meaning “All pervading space”
The record of all that is, has ever been, and will be.

(p.60)

El Morya 3-18-10

“The Aura of the Great Central Sun actually permeates the entire cosmic egg...and every created Sun in all galaxies is nourished by it.

Men and women can merge into this solar essence when they identify with this great energy field.”

El Morya 3-18-10 *Continued...*

“Joy, Levity and Creativity will be manifest in the life of those who merge their aura with the light of the Great Central Sun.”

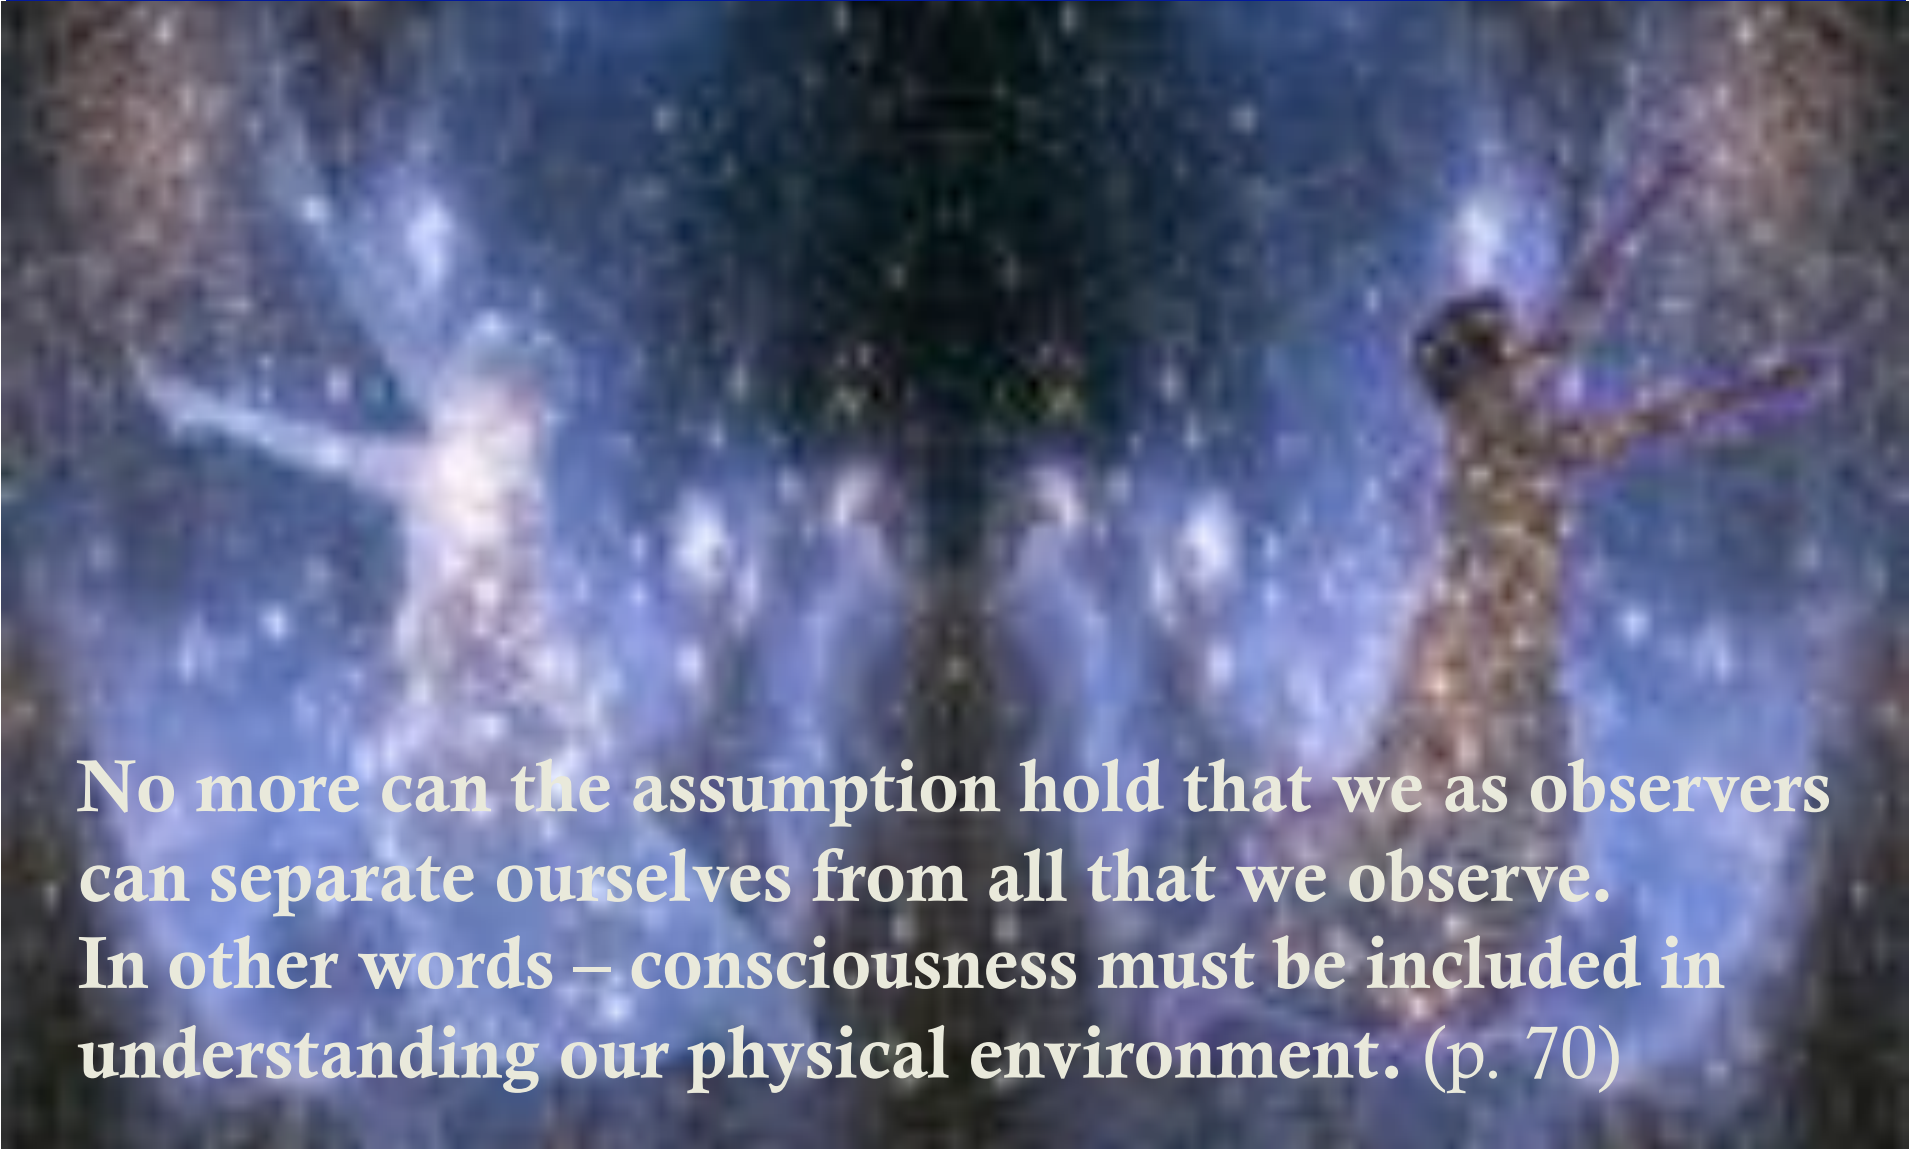

Expanding scientific realms of research

Recent discoveries are causing leading-edge scientists to ask the most profound questions ever confronted on the nature of not only the physical world, but reality itself.

(p. 70)

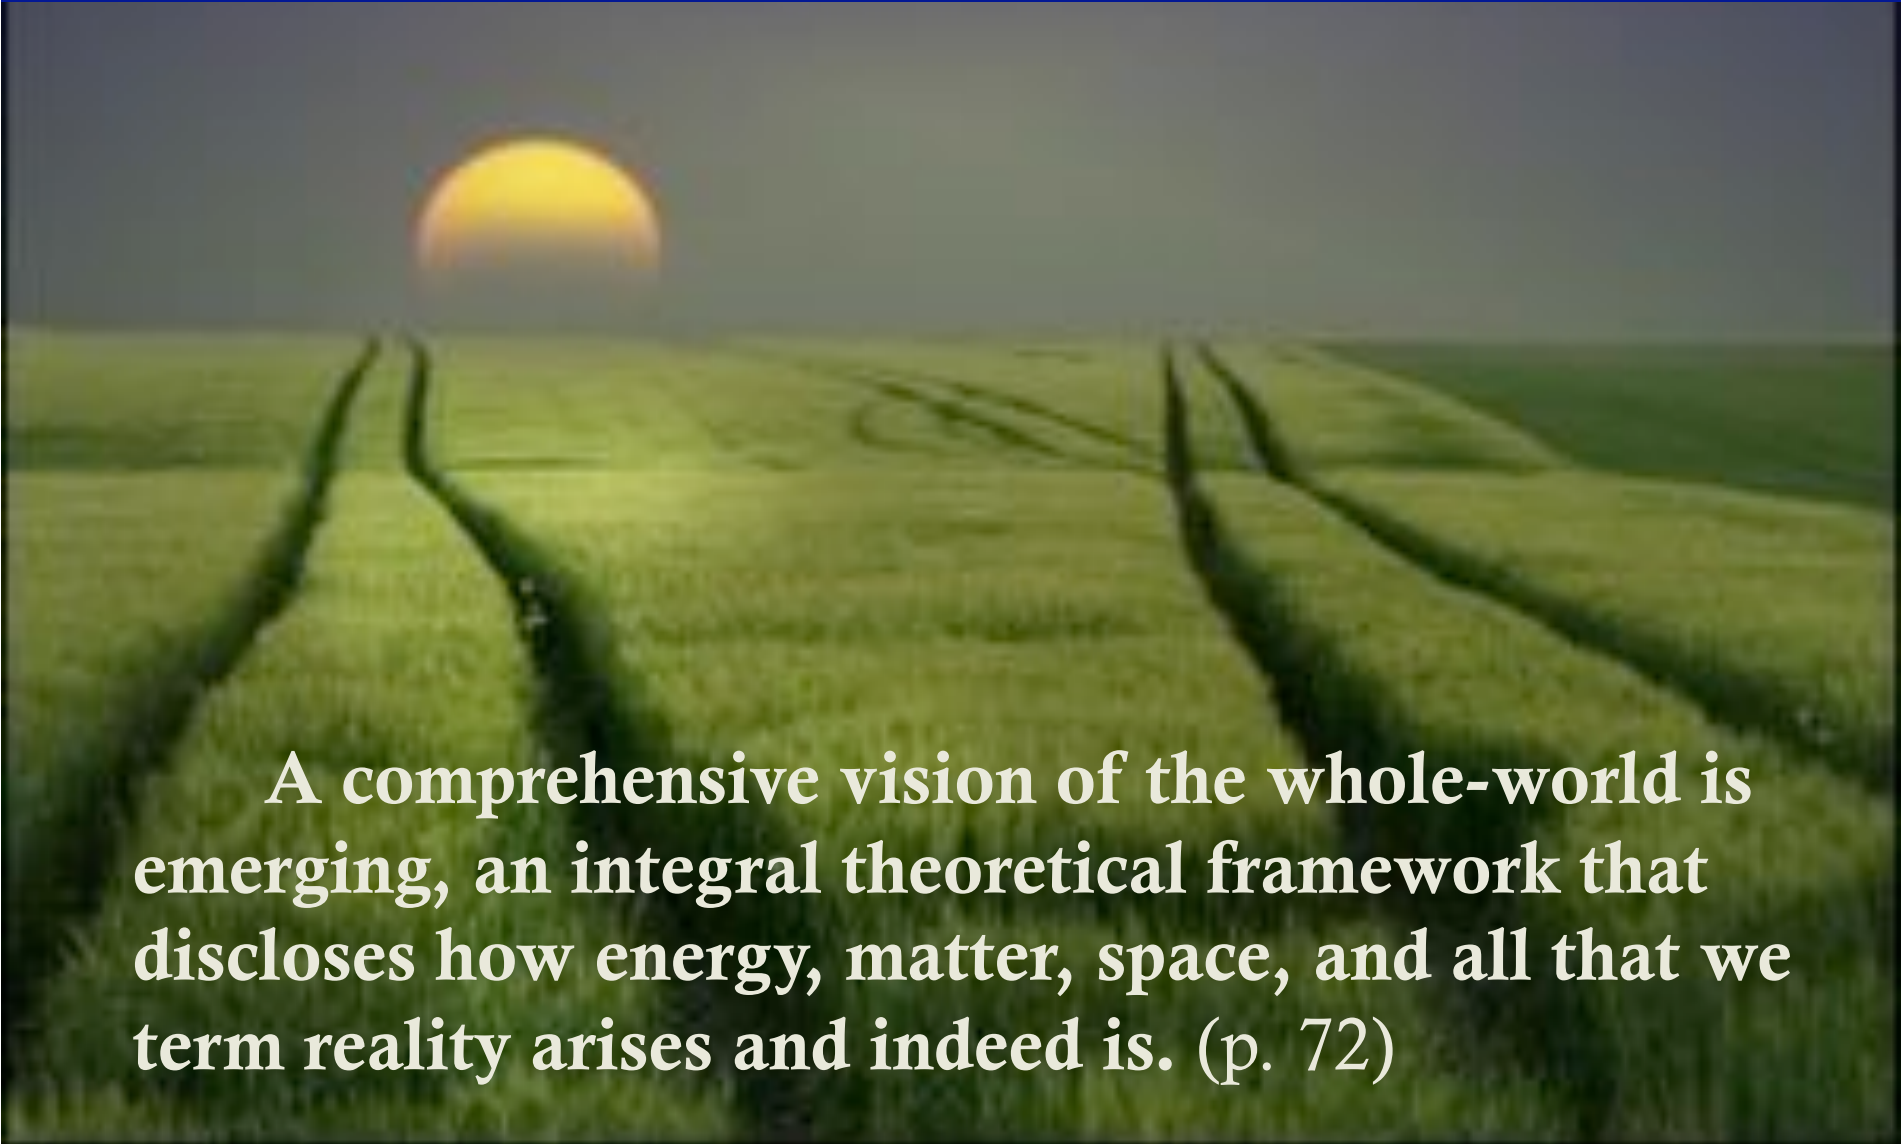

Objective Reality?

No more can the assumption hold that we as observers can separate ourselves from all that we observe. In other words – consciousness must be included in understanding our physical environment. (p. 70)

Integration of Theory

A landscape photograph showing a green field with a path leading towards a rising sun. The sun is a bright yellow-orange circle on the horizon, partially obscured by the field's edge. The sky is a pale, hazy blue. The field is lush green with visible furrows and tracks.

A comprehensive vision of the whole-world is emerging, an integral theoretical framework that discloses how energy, matter, space, and all that we term reality arises and indeed is. (p. 72)

**“What has worked
for you in developing
greater sensitivity such that
you could read auras
and their emanations
and discern their
meanings?”**

Next Week Question:

“Color is important.

Share how you have spiritually
discriminated the gradations of
various colors and their vibrations.”
