

HOW TO SPIRITUALLY DEAL WITH CRIME AND GANGS IN THE MAJOR CITIES

Meru University

SYLLABUS

Instructor: Dee M. Stewart

Sponsoring Masters:

- Afra
- K-17
- Godfrey
- Lanello

Purpose of the Course:

- To become aware of the dynamics within our inner cities and, as initiates, use a visionary blueprint and spiritual approach through divine magic to create an illustrious vision of our cities and youth. We will consider options, opportunities and spiritual practices that will impact both.
- To commune with the sponsoring masters on spiritually changing our major cities.

Course Description:

- During this course we will explore a synopsis of the major opportunities in our urban cities regarding crime and gang violence with an emphasis on spirituality and possibilities for opening avenues of constructive change, the promulgation of brother/sisterhood as a viable model and a platform that can open the floodgates for the Great Crystal Golden Age of love, peace and harmony to come forth for our children and youth in our inner cities.
- We will explore reasons and conditions that perpetuate these circumstances in our cities and look at mundane possibilities as well as the wisdom of the ascended masters. We will look at statistical data about crime and gang activity in the major cities in America and engage in an alchemical experiment to bring about change through a visioning meditation.
